February 28, 2003

Sir:

In response to the Office Action dated **December 10, 2002**, please amend the above-identified application as follows:

IN THE CLAIMS:

Amend claim 1 as follows:

1. (Amended) A generator set having a converter composed of semiconductor rectifying devices for rectifying the power output of a magnetic generator and an inverter for converting a direct current output of the converter into an alternating current form of a particular frequency, comprising:

a semiconductor rectifying device driving means for controlling the conduction of the semiconductor rectifying devices to maintain the voltage output of the converter at a target
